To Whom It May Concern,

I'm a Computer Science student looking for an internship that will help me apply my skills and drive my continued growth. I believe my solid understanding of computer science fundamentals, fullstack development experience, and passion for delivering high-quality code make me a great fit for this position.

I'm currently a rising Junior will be completing my B.S. in Computer Science at SFSU, with an expected graduation of Spring 2024. I've excelled in classes across the computer science field, including Linear Algebra, Data Structures & Algorithms, and Computer Organization.

I'm familiar with a variety of programming languages including Java, C/C++, Python, Swift & JavaScript, and technologies like Node.js, React, HTML/CSS, JSON, AWS, and Git. My personal projects include Android & iOS app development, full-stack website development, and hackathons like CruzHack 2022. I'm passionate about open-source software and I use Linux for my day-to-day work.

I was attracted to this role because of the focus on career growth and innovation at Deloitte. The research I've done on your company has shown sharply-focused and impactful solutions created by talented and creative people. I'd love the chance to bring my passion and skills to your team.

Thank you for your time and consideration. I'm looking forward to learning more details about the the Deloitte platform, and I'm excited for the chance to be a part of your team.

Sincerely,

Griffin Evans
